APPENDIX C
RESOLUTION

WHEREAS, N.J.S.A. 40A:5A-15 requires the governing body of each local authority to cause an annual audit of its accounts to be made, and

WHEREAS, the annual audit report for the fiscal year ending December 31, 2011 has been completed and filed with the State of New Jersey, Department of Community Affairs, Division of Local Government Services pursuant to N.J.S.A. 40A:5A-15 and

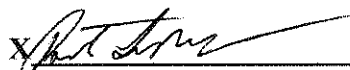

WHEREAS, N.J.S.A. 40A:5A-17, requires the governing body of each authority to, within 45 days of receipt of the annual audit, certify by resolution to the Local Finance Board that each member thereof has personally reviewed the annual audit report, and specifically the sections of the audit report entitled "General Comments" and "Recommendations," and has evidenced same by group affidavit in the form prescribed by the Local Finance Board, and

WHEREAS, the members of the governing body have received the annual audit and have personally reviewed the annual audit, and have specifically reviewed the sections of the annual audit report entitled "General Comments" and "Recommendations," in accordance with N.J.S.A.. 40A:5A-17.

NOW, THEREFORE BE IT RESOLVED, that the governing body of the Monroe Township Fire District #1 hereby certifies to the Local Finance Board of the State of New Jersey that each governing body member has personally reviewed the annual audit report for the fiscal year ended December 31, 2011, and specifically has reviewed the sections of the audit report entitled "General Comments" and "Recommendations," and has evidenced same by group affidavit in the form prescribed by the Local Finance Board.

BE IT FURTHER RESOLVED that the secretary of the authority is hereby directed to promptly submit to the Local Finance Board the aforesaid group affidavit, accompanied by a certified true copy of this resolution.

IT IS HEREBY CERTIFIED THAT THIS IS A TRUE COPY OF THE RESOLUTION PASSED AT THE MEETING HELD ON 10/17/12.

Board of Fire Commissioners
Township of Monroe
Fire District No. 1
Monroe Township, N.J. 08831

We have audited the financial statements of the governmental activities and each major fund of the Township of Monroe Fire District #1, in the County of Middlesex, State of New Jersey, as of and for the year ended December 31, 2011 and have issued our report thereon dated September 28, 2012, which indicated that the Fire District implemented a new reporting model, as promulgated by GASB Statement #34, as of and for the year ended December 31, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, and in compliance with audit requirements as prescribed by the Bureau of Authority Regulation, Division of Local Government Services, State of New Jersey.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Township of Monroe Fire District #1's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatement in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operations that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Township of Monroe Fire District #1's financial statements are free of material misstatement; we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under Government Auditing Standards, and audit requirements as prescribed by the Bureau of Authority Regulation, Division of Local Government Services, State of New Jersey.

This report is intended solely for the information and use of the management of the Fire District and the Bureau of Authority Regulation and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully submitted,

BONAMICI, COLLETTI, SOLITARIO & TIERNEY

REQUIRED SUPPLEMENTARY INFORMATION
PART 1

**TOWNSHIP OF MONROE FIRE DISTRICT NO. 1
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED DECEMBER 31, 2011
(UNAUDITED)**

As management of the Monroe Township Fire District No. 1, we offer readers of the Monroe Township Fire District No. 1 financial statements this narrative overview and analysis of the financial activities of the Monroe Township Fire District No. 1 for the year ended December 31, 2011. The intent of this discussion and analysis is to look at the Township of Monroe Fire District No. 1 financial performance as a whole. Readers should also review the information furnished in the notes to the basic financial statements along with the financial statements to enhance their understanding of the Monroe Township Fire District No. 1's financial performance.

Financial Highlights

- The assets of Monroe Township Fire District No. 1 exceeded its liabilities at the close of the most recent year by \$1,381,254 (net Assets).
- As of the close of the current year, the Monroe Township Fire District No. 1's governmental funds reported combined ending fund balances of \$1,250,214, a decrease of \$326,707 in comparison with the prior year.
- At the end of the current year, the reserved fund balance for all funds was \$84,000, a decrease of \$100,000 in comparison with the prior year.
- At the end of the current year, the unreserved fund balance for the general fund was \$1,094,068, approximately a 17 percent decrease from the prior year.
- The total debt of Monroe Township Fire District No. 1 decreased by \$96,252 as a result of a payment to capital lease obligation.

Overview of Financial Statements

This discussion and analysis is intended to serve as an introduction to the Monroe Township Fire District No. 1's basic financial statements. The Monroe Township Fire District No. 1's basic financial statements are comprised of three components: (1) district-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements.

District-wide financial statements. The district-wide financial statements are designed to provide readers with a broad overview of the Monroe Township Fire District No. 1's finances, in a manner similar to a private sector business.

The Statement of Net Assets presents information on all of the Monroe Township Fire District No. 1's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Monroe Township Fire District No. 1 is improving or deteriorating.

The Statement of Activities presents information showing how the Monroe Township Fire District No. 1's net assets changed during the most recent year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods (e.g., earned but unused sick leave).

Both of the district-wide financial statements distinguish functions of the Monroe Township Fire District No. 1 that are principally supported by taxes and intergovernmental revenues (governmental activities). The activities of the Monroe Township Fire District No. 1 include fire-fighting services that are provided to the citizens of the Monroe Township Fire District No. 1.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Monroe Township Fire District No. 1 like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Monroe Township Fire District No. 1 constitute one fund type, governmental funds.

Governmental Funds. All of the Monroe Township Fire District No. 1's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future periods. These funds are reported using an accounting method called the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Monroe Township Fire District No. 1's general government operations and the basic services it provides. Government fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance fire-fighting services.

The Monroe Township Fire District No. 1 maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund, special revenue fund, capital projects fund, and the debt service fund.

The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Also, Monroe Township Fire District No. 1 adopts an annual budget in accordance with N.J.S.A. 40A:14:78-3. Budgetary comparison schedules have been provided to demonstrate compliance with the budget.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the district-wide and fund financial statements. The notes to financial statements are an integral part of the financial statements.

District-wide Financial Analysis

As noted earlier, the net assets may serve over time as a useful indicator of a government's financial position. In the case of Monroe Township Fire District No. 1 assets exceeded liabilities by \$1,381,254 at the close of the most recent year.

A portion of the Monroe Township Fire District No. 1's net assets (8 percent) reflects its investment in capital assets (i.e. vehicles and equipment). The Monroe Township Fire District No. 1 uses these assets to provide fire-fighting services to the citizens of the Monroe Township Fire District No. 1 consequently these assets are not available for future spending. Although the Monroe Township Fire District No. 1's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Statement of Net Assets

MONROE TOWNSHIP FIRE DISTRICT NO. 1
NET ASSETS
DECEMBER 31, 2011

CURRENT AND OTHER ASSETS	\$	1,359,397
CAPITAL ASSETS		<u>215,007</u>
 TOTAL ASSETS	 \$	 1,574,404
 LONG-TERM LIABILITIES OUTSTANDING	 \$	 0
OTHER LIABILITIES		<u>193,150</u>
 TOTAL LIABILITIES	 \$	 <u>193,150</u>
 NET ASSETS	 \$	 <u><u>1,381,254</u></u>

ANALYSIS OF NET ASSETS

INVESTED IN CAPITAL ASSETS NET OF RELATED DEBT	\$	118,755
RESTRICTED FOR FUTURE EXPENDITURES		84,000
UNRESTRICTED		<u>1,178,499</u>
TOTAL NET ASSETS	\$	<u>1,381,254</u>

An additional portion of the Monroe Township Fire District No. 1's net assets (6 percent) represents resources that are subject to external restrictions on how they may be used.

Governmental Activities. The Statement of Activities shows the cost of the governmental activities program services and the charges for service and grants offsetting those services. Key elements of the decrease in governmental activities are as follows:

Program Expenses

Operating Expenses:		
Administration	\$	197,148
Cost of Operations and Maintenance		962,631
Operating Appropriations Offset with Revenues		29,256
LOSAP Contribution		48,000
Capital Appropriations:		
Fire Apparatus		<u>15,057</u>
Total Program Expenses	\$	1,252,092
Program Revenues		
Charges for Services	\$	14,029
Operating Grants & Contributions		<u>0</u>
Total Program Revenues	\$	<u>14,029</u>
Net Program Expenses	\$	1,238,063

General Revenues

Taxes:		
Property Taxes, Levied for General Purposes	\$	931,758
Taxes Levied for Debt Service		96,252
Unrestricted Investment Earnings		13,869
Miscellaneous Income		<u>17,832</u>
Total General Revenues	\$	<u>1,059,711</u>

Decrease in Net Assets	\$	(178,352)
Net Assets, January 1	\$	1,559,606
Adjustment to Fund Balance		<u>0</u>
Net Assets, December 31	\$	<u>1,381,254</u>

Property taxes constituted 97% of revenues for government activities for the Fire District for the year 2011.

Cost of Operations and Maintenance comprises 78% of fire district expenses.

Financial Analysis of the Government Funds. As stated earlier, the Monroe Township Fire District No. 1 uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Fund. The focus of the Monroe Township Fire District No. 1's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Monroe Township Fire District No. 1's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the year and as a useful measure of permitting a governmental unit to maintain cash flow in anticipation of tax collections.

As of the end of the current year, the Monroe Township Fire District No. 1's governmental funds reported combined ending fund balances of \$1,250,214. A decrease of \$326,707 in comparison with the prior year.

Of the combined ending fund balances of \$1,250,214, the unreserved fund balance constituted \$1,166,214. Of the unreserved fund balance, \$160,000 has been utilized in the 2012 budget. The remainder of fund balance, in the amount of \$84,000, is reserved to indicate that it is not available for new spending because it is committed to planned future outlays that are subject to the approval of the voters of the Monroe Township Fire District No. 1.

The general fund is the main operating fund of the Monroe Township Fire District No. 1. At the end of the current year, the unreserved fund balance of the general fund was \$1,094,068. The general fund balance decreased by \$226,707 during the year.

The reserved funds of the Monroe Township Fire District No. 1 contain various specified funds. At the end of the current year the reserved funds total was \$84,000. There was a decrease of \$100,000 in the reserved funds during the year. This was due to the purchase of New Brush Truck.

General Fund Budgetary Highlights

During the course of the 2011-year the Monroe Township Fire District No. 1 modified its general fund budget in conformance with statute.

The final budgetary basis revenue estimate was \$1,455,510. The original budgetary estimate was the same.

During the year 2011, the Monroe Township Fire District No. 1 budgeted \$1,028,010 for property taxes (local tax levy) and \$0 for state aid revenues (supplemental fire services grant). The Fire Safety Act Revenue was budgeted for \$17,500.

The final budgetary basis expenditures appropriation estimate was \$1,455,510. The original budgetary estimate was the same.

Capital Assets and Debt Administration

The Monroe Township Fire District No. 1's investment in capital assets for its governmental activities as of December 31, 2011 amounts to \$215,007 (net of accumulated depreciation). This investment in capital assets includes land, vehicles and firefighting equipment.

At the end of 2011 the Monroe Township Fire District No. 1 had \$2,213,165 invested in land, vehicles and firefighting equipment. The accumulated depreciation on these items was \$1,998,158.

MONROE TOWNSHIP FIRE DISTRICT NO. 1
CAPITAL ASSETS
(NET OF ACCUMULATED DEPRECIATION)
DECEMBER 31, 2011

LAND	\$ 5,116
VEHICLES	195,918
FIREFIGHTING EQUIPMENT	<u>13,973</u>
TOTAL CAPITAL ASSETS	<u>\$ 215,007</u>

Additional information on the Monroe Township Fire District No. 1's capital assets can be found in Note 4 in the notes to financial statements.

Long-Term Obligations

As of December 31, 2011 the Monroe Township Fire District No. 1 had incurred capital lease obligation in the amount of \$96,252 of which \$96,252 is due within the next twelve months.

Economic Factors and Next Years Budget

For the 2011 year the Monroe Township Fire District No. 1 was able to sustain its budget through the district tax levy and other sources of revenue. Approximately 70 percent of total revenue is from the local tax levy, while the remainder is from other sources.

The Board of Fire Commissioners adopted the 2012 budget January 18, 2012 and the voters subsequently approved the budget at the annual fire district election held on February 18, 2012.

Requests for Information

This financial report is designed to provide a general overview of the Monroe Township Fire District No. 1's finances for all of those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

NOTES TO THE FINANCIAL STATEMENTS

TOWNSHIP OF MONROE FIRE DISTRICT NO. 1

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2011

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Reporting Entity - Fire District No. 1 of the Township of Monroe is a political subdivision of the Township of Monroe, Middlesex County, New Jersey. It was formed in December 1981 through the adoption of a Township ordinance. A board of five commissioners oversees all operations of the Fire District. The length of each commissioner's term is three years with the annual election held the third Saturday of every February.

Fire Districts are governed by N.J.S.A. 40A: 14-70 et al. and are organized as a taxing authority charged with the responsibility of providing the resources necessary to provide fire fighting services to the residents within its territorial location. Fire District No. 1 of the Township of Monroe has one fire company within its jurisdiction, the Monroe Township Volunteer Fire Company.

Component Units - GASB Statement No. 14, The Financial Reporting Entity, provides guidance that all entities associated with a primary government are potential component units and should be evaluated for inclusion in the financial reporting entity. A primary government is financially accountable not only for the organizations that make up its legal entity but also for legally separate organizations that meet the criteria established by GASB Statement No. 14, as amended by GASB Statement No. 39, Determining Whether Certain Organizations are Component Units. As of December 31, 2011, it has been determined by the Fire District that no component units exist.

Basis of Presentation - The financial statements of the Township of Monroe Fire District No. 1 have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Fire District's accounting policies are described in this Note.

The Fire District's basic financial statements consist of district-wide statements, including a Statement of Net Assets and a Statement of Activities, and fund financial statements, which provide a more detailed level of financial information.

District-wide Financial Statements - The Statement of Net Assets and the Statement of Activities display information about the Fire District as a whole. These statements include the financial activities of the government. The Statement of Net Assets presents the financial condition of the governmental activities of the

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

District-wide Financial Statements (cont'd)

Fire District at year-end. The Statement of Activities presents a comparison between direct expenses and program revenues for each program or function of the Fire District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. The policy of the Fire District is to not allocate indirect expenses to functions in the statement of activities. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the Fire District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the Fire District.

Fund Financial Statements – During the year, the Fire District segregates transactions related to certain Fire District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Fire District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a single column. The Fire District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. For fire districts, only one category of funds exists, that being governmental.

Governmental Funds - Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the Fire District's major governmental funds:

General Fund - The General Fund is the general operating fund of the Fire District and is used to account for the inflows and outflows of its financial resources. The acquisition of certain capital assets, such as fire fighting apparatus and equipment, is accounted for in the General Fund when it is responsible for the financing of such expenditures.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenues sources, such as state or federal government grants and appropriations, which are legally restricted to expenditures for specified purposes.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Capital Projects Fund - The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities such as fire houses and fire fighting apparatus. Generally, the financial resources of the Capital Projects Fund are derived from the issuance of debt or by the reservation of fund balance, which must be authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Measurement Focus

District-wide Financial Statements - The district-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the Fire District are included on the Statement of Net Assets.

Fund Financial Statements - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The Statement of Revenues, Expenditures and Changes in Fund Balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the district-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the district-wide statements and the statements for governmental funds.

Basis of Accounting - Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. District-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-Exchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the Fire District,

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Revenues - Exchange and Non-Exchange Transactions (cont'd)

available means expected to be received within thirty days of year-end.

Non-exchange transactions, in which the Fire District receives value without directly giving equal value in return, include Ad Valorem (property) taxes, grants, entitlements and donations. Ad Valorem (Property) Taxes are susceptible to accrual, as under New Jersey State Statute, a municipality is required to remit to its Fire District the entire balance of taxes in the amount voted upon or certified, prior to the end of the fire district year. The Fire District records the entire approved tax levy as revenue (accrued) at the start of the year since the revenue is both measurable and available. The Fire District is entitled to receive moneys under the following established payment schedule: on or before April 1, an amount equaling 21.25% of all moneys assessed; on or before July 1, an amount equaling 22.5% of all moneys assessed; on or before October 1, an amount equaling 25% of all moneys assessed; and on or before December 31, an amount equaling the difference between the total of all moneys so assessed and the total amount of moneys previously paid over. Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied.

Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the Fire District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the Fire District on a reimbursement basis.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: grants, fees and rentals.

Expenses / Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Budgets / Budgetary Control - The Fire District must adopt an annual budget in accordance with N.J.S.A. 40A:14-78.1 et al. The fire commissioners must introduce and approve the annual budget not later than sixty days prior to the annual election. At introduction, the commissioners shall fix the time and place for a public hearing on the budget and must advertise the time and place at least ten days prior to the hearing in a newspaper having substantial circulation in the Fire District. The public hearing must not be held less than twenty-eight days after the date the budget was introduced. After the hearing has been held, the fire commissioners may, by majority vote, adopt the budget.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Budgets / Budgetary Control (cont'd)

Amendments may be made to the Fire District budget in accordance with N.J.S.A. 40A:14-78.3. The budget may not be amended subsequent to its final adoption and approval.

Subsequent to the adoption of the Fire District budget, the amount of money to be raised by taxation in support of the Fire District budget must appear on the ballot for the annual election for approval of the legal voters.

Fire districts have a prescribed budgetary basis to demonstrate legal compliance. However, budgets are adopted on principally the same basis of accounting utilized for the preparation of the Fire District's basic fund financial statements.

Amounts reported under "final budget" on Exhibit C-1, D-1 and E-2 includes modifications to the adopted budgets that were made during the year as approved by the Board of Commissioners.

Exhibit C-2 presents a reconciliation of the general fund revenues and special revenue fund revenues and expenditures from the budgetary basis of accounting as presented in the General Fund Budgetary Comparison Schedule and the Special Revenue Fund Budgetary comparison Schedule to the GAAP basis of accounting as presented in the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds. Note that the Fire District does not report encumbrances outstanding at year end as expenditures in the general fund since the general fund budget follows modified accrual basis of accounting.

Encumbrances - Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as reservations of fund balances at year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund for which the Fire District has received advances are reflected in the balance sheet as deferred revenues at year end.

The encumbered appropriation authority carries over into the next year. An entry will be made at the beginning of the next year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current year end.

Cash, Cash Equivalents and Investments - Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Cash, Cash Equivalents and Investments (cont'd)

accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey governments are limited as to the types of investments and types of financial institutions they may invest in. N.J.S.A. 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey governments.

Additionally, the Fire District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act. The Act was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include State or federally chartered banks, savings banks or associations located in the State of New Jersey or state or federally chartered banks, savings banks or associations located in another state with a branch office in the State of New Jersey, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

Inventories and Prepaid Expenses - Inventories are valued at cost, which approximates market. The costs are determined on a first-in, first-out method.

The cost of inventories in governmental fund types is recorded as expenditures when purchased rather than when consumed.

Inventories recorded on the district-wide financial statements are recorded as expenditures when consumed rather than when purchased. As of December 31, 2011, no inventories exist.

Prepaid expenses recorded in the governmental fund types, which benefit future periods, are recorded as an expenditure during the year of purchase. Prepaid expenses recorded on the district-wide financial statements represent payments made to vendors for services that will benefit periods beyond December 31, 2011.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Short-Term Interfund Receivables / Payables - Short-term interfund receivables / payables represent amounts that are owed, other than charges for goods or services rendered to / from a particular fund in the Fire District and that are due within one year. These amounts are eliminated in the governmental column of the Statement of Net Assets.

Capital Assets - General capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the district-wide Statement of Net Assets but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market value as of the date received. The Fire District maintains a capitalization threshold of \$5,000.00. The Fire District does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets.

Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Vehicles	5-10 Years
Firefighting Equipment	5 Years

N.J.S.A. 40A:14-84 governs the procedures for the acquisition of property and equipment for Fire Districts, and N.J.S.A. 40A:14-85 to 87 governs procedures for the issuance of any debt related to such purchases. In summary, Fire Districts may purchase fire fighting apparatus and equipment and land and buildings to house such property in an amount not exceeding 5 mills on the dollar of the last assessed valuation of property within the district upon the approval of the legal voters. Debt may be issued up to \$60,000 or 2 percent of the assessed valuation of property, whichever is larger.

Deferred Revenue - Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Accrued Liabilities and Long-Term Obligations - All payables, accrued liabilities, and long-term obligations are reported in the district-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments,

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Accrued Liabilities and Long-Term Obligations (Cont'd)

compensated absences, special termination benefits and contractually required pension contributions that will be paid from the governmental funds are reported as a liability in the fund financial statements only to the extent that they are normally expected to be paid with expendable available finance resources. Bonds are recognized as a liability on the fund financial statements when due.

Net Assets - Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Fire District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The Fire District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Fund Balance Reserves - The Fire District reserves portions of fund balance which are legally segregated for specific future use or which do not represent available expendable resources and, therefore, are not available for appropriation for expenditures. Unreserved fund balance indicates that portion of fund balance that is available for appropriation in future periods. Fund balance reserves are established for encumbrances, legally restricted appropriations, excess surplus and capital reserve account.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Compensated Absences - Compensated absences are those absences for which employees will be paid, such as vacation, sick leave and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the Fire District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the Fire District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

The entire compensated absence liability is reported on the district-wide financial statements.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Compensated Absences (cont'd)

For governmental funds, the current portion of unpaid compensated absences is the amount that is normally expected to be paid with expendable available financial resources.

NOTE 2: CASH AND CASH EQUIVALENTS

All bank deposits as of December 31, 2011 are classified as to credit risk by the following three categories described below:

Category 1

Insured or collateralized with securities held by the Fire District or by its agent in the Fire District's name.

Category 2

Collateralized with securities held by the pledging public depository's trust department or agent in the Fire District's name.

Category 3

Uncollateralized, including any deposits that are collateralized with securities held by the pledging public depository, or by its trust department or agent but not in the Fire District's name.

As of December 31, 2011, the Fire District's deposits are summarized as follows:

<u>Category</u>	<u>Amount</u>
1	\$1,346,926
2	-0-
3	-0-
	<u>\$1,346,926</u>

NOTE 3: PROPERTY TAX LEVIES

Following is a tabulation of Fire District assessed valuations, tax levies and property tax rates per \$100.00 of assessed valuations for the current and preceding four years:

NOTE 3: PROPERTY TAX LEVIES (CONT'D)

<u>Year</u>	<u>Assessed Valuations</u>	<u>Total Tax Levy</u>	<u>Property Tax Rates</u>
2011	\$ 939,734,130	\$1,028,010	\$.109
2010	940,596,222	1,308,565	.139
2009	939,020,991	1,493,866	.159
2008	936,495,343	1,463,143	.156
2007	918,635,262	1,368,019	.149

NOTE 4: CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2011 was as follows:

	<u>Balance Jan. 1, 2011</u>	<u>Increases</u>	<u>Decreases</u>	<u>Balance Dec.31, 2011</u>
Land	\$ 5,116			\$ 5,116
Vehicles	1,630,571	\$ 194,821		1,825,392
Firefighting Equipment	<u>382,657</u>	<u>\$ - 0 -</u>	<u>- 0 -</u>	<u>382,657</u>
Totals	\$ 2,018,344	\$ 194,821	- 0 -	\$ 2,213,165
Total Capital Assets being Depreciated	\$ 2,013,228	\$ 194,821	- 0 -	\$ 2,208,049
Less Accumulated Depreciation:				
Vehicles	1,522,401	107,073	- 0 -	1,629,474
Firefighting Equip.	<u>347,624</u>	<u>21,060</u>	<u>- 0 -</u>	<u>368,684</u>
Total Accumulated Depreciation	\$ 1,870,025	\$ 128,133	- 0 -	\$ 1,998,158
Total Capital Assets being Depreciated, net of Accumulated Depreciation	<u>143,203</u>	<u>66,688</u>	<u>- 0 -</u>	<u>209,891</u>
Capital Assets, net	<u>\$ 148,319</u>	<u>\$ 66,688</u>	<u>- 0 -</u>	<u>\$ 215,007</u>

* Depreciation expense was charged to governmental functions as follows:

Cost of Operations and Maintenance	\$ 123,617
Cost of Appropriations Offset with Revenues	<u>4,516</u>
Total Depreciation Expense	<u>\$ 128,133</u>

NOTE 5: LONG-TERM OBLIGATIONS

During the year ended December 31, 2011, the following changes occurred in long-term obligations:

	<u>Principal Outstanding Jan. 1, 2011</u>	<u>Increases</u>	<u>Decreases</u>	<u>Principal Outstanding Dec. 31, 2011</u>	<u>Due Within One Year</u>
Obligation under Capital Lease	\$ 192,504	\$ - 0 -	\$ <96,252>	\$ 96,252	\$ 96,252

Obligations under Capital Lease - The Fire District has one (1) capital lease due as of December 31, 2011. It entered into the capital lease agreement with TD Equipment Finance, Inc., formerly Commerce Commercial Leasing, to lease / purchase a 2006 E-One Rear Mount SS Pumper. The terms of the lease require the principal repayment of \$600,000 to be paid in annual installments over seven years beginning July 2006. The following schedule details the lease and its payments:

<u>Year Ending Dec. 31</u>	<u>Vehicle</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2012	2006 Pumper	\$ 92,506	\$ 3,746	\$ 96,252

NOTE 6: PENSION PLANS

The Fire District contributes to two cost-sharing multiple-employer defined benefit pension plans, the Public Employees' Retirement System and the Police and Firemen's Retirement System, which are administered by the New Jersey Division of Pensions and Benefits. These plans provide retirement, death and disability. Vesting and benefit provisions are established by N.J.S.A. 43:15A and 43:3B for the PERS. Each plan has a Board of Trustees that is primarily responsible for its administration. The Division issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to:

State of New Jersey
Division of Pensions and Benefits
P. O. Box 295
Trenton, New Jersey 08625-0295

The contribution requirements of plan members are determined by State statute. In accordance with Chapter 62, P.L. 1994, plan members enrolled in the Public Employee's Retirement System ("PERS") are required to contribute 5% of their annual covered salary. However, Chapter 115, P.L. 1997 provides for a reduction in this in this rate to 4.5% for calendar years 1998 and 1999. Chapter 415, P.L.

NOTE 6: PENSION PLANS (CONT'D)

1999 provides for a reduction in this rate to 3% for calendar years 2000 and 2001 and for a contribution rate reduction of up to 2% of compensation in future calendar years if the State Treasurer determines that excess valuation assets will be used to reduce the normal contributions made to the system by the State and local employers in a fiscal year beginning immediately prior to a calendar year. Under this provision of the statute, the contribution rate for calendar years 2002, 2003 and 2004 has been established at 3%. As of the calendar year 2005, the Public Employers' Retirement System member contribution rate was at the full contribution rate of 5%. In accordance with Chapter 204, P.L. 1989, plan members enrolled in the Police and Firemen's Retirement System ("PFRS") are required to contribute 8.5% of their annual covered salary. The Fire District is billed annually for its normal contribution plus any accrued liability.

The Fire District's contributions to the various plans, equal to the required contributions, were as follows:

<u>Year</u>	<u>PERS</u>	<u>PFRS</u>
2011	\$ 4,463 (B)	\$ 0
2010	5,988 (B)	32,270 (B)
2009	2,238 (B)	27,100 (B)
2008	1,864 (B)	24,455 (B)
2007	5,132 (B)	23,826 (B)

- (A) *Funded by the Excess Pension Asset Credit*
- (B) *Partially Funded by the Chapter 108, P.L. 2003 Phase-in Credit*
- (C) *Funded by the Pension Security Act Credit*
- (D) *Funded by the Pension Funding Credit*

In addition to the above Pension Plans previously noted the State Legislature recently adopted Chapter 92 of the Laws of 2007 (N.J.S.A. 43:15C-1 et. seq.) to create the Defined Contribution Retirement Program (DCRP) to provide retirement benefits to various county and municipal officials effective on 7/1/2007. DCRP states that a newly elected or appointed official must earn a minimum base salary of \$1,500 per year to be eligible to participate. A resolution was presented to and adopted by the Board of Fire Commissioners on July 16, 2008 determining positions eligible for the Defined Contribution Retirement Program, Chapter 92, P.L. 2007 (N.J.S.A. 43:15C-2). There were no participants enrolled in this program as of December 31, 2011.

NOTE 7: RISK MANAGEMENT

The Fire District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

NOTE 7: RISK MANAGEMENT (CONT'D)

Property and Liability Insurance - The Fire District maintains commercial insurance coverage for property, liability and surety bonds.

New Jersey Unemployment Compensation Insurance - The Fire District covers its employees under the New Jersey Unemployment Trust Fund by the "contribution" method. Under this method, a contribution rate is established annually for the Fire District share of unemployment tax. This rate is based on cost experience for all government employers.

NOTE 8: INTERFUND RECEIVABLES AND PAYABLES

As of December 31, 2011, no inter-fund receivables or payables existed.

NOTE 9: FUND BALANCES

RESERVED - Reservations of fund balances of governmental funds are established to either (1) satisfy legal covenants that require that a portion of the fund balance be segregated or (2) identify the portion of the fund balance that is not appropriate for future expenditures. When the Fire District desires to utilize these funds in their annual budget, a capital resolution must be passed by the Board of Fire Commissioners prior to any expenditure being made against a capital appropriation. Specific reservations of the fund balance as of December 31, 2011 are summarized below:

For Future Capital Outlays - These funds are restricted for capital expenditures to be made in future years. When the Fire District desires to utilize these funds in their annual budget, a capital resolution must be passed by the Board of Fire Commissioners prior to any expenditure against a capital appropriation. As of December 31, 2011, the fund balance is \$84,000.

<u>Description</u>	<u>Amount</u>
Firehouse	\$ 4,000
Firemen's Benefit Program	\$ 60,000
General Funds	\$ 20,000

UNRESERVED - Of the \$1,166,214 unreserved fund balance at December 31, 2011, \$160,000 has been designated for the subsequent year's expenditures.

NOTE 10: CHANGE IN ACCOUNTING PRINCIPLE AND RESTATEMENT OF FUND BALANCE

For the year ended December 31, 2011, the Fire District has implemented GASB Statement No. 33, "Accounting and Financial Reporting for Non-exchange Transactions", GASB Statement No. 34, "Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments", GASB Statement No. 37, "Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments: Omnibus", and GASB Statement No. 38, "Certain Financial Statement Note Disclosures". GASB Statement 34 creates new basic financial statements for reporting the Fire District's financial activities. The financial statements now include district-wide financial statements prepared on an accrual basis of accounting and fund financial statements which present information for individual major funds rather than by fund type.

The beginning net asset amount for governmental activities reflects the following changes required by GASB Statement No. 34:

Fund Balances January 1, 2011	\$1,576,921
Prepaid Expenses	26,870
Capital Assets, net of Accumulated Depreciation	148,319
Long-term Liabilities	< 192,504 >
Governmental Activities Net Assets, January 1, 2011	<u>\$1,559,606</u>

NOTE 11: LENGTH OF SERVICE AWARD PROGRAMS

The Fire District's Length of Service Awards Program ("LOSAP") was created by a Fire District Resolution adopted on December 9, 1998 pursuant to Section 457 (e)(11)(13) of the Internal Revenue Service Code of 1986, as amended, except for provisions added by reason of the Length of Service Award Program as enacted into federal law in 1997. The voters of the Township of Monroe Fire District No. 1 approved the adoption of the Plan at the annual election held on February 20, 1999, and the first year of eligibility for entrance into the Plan by qualified volunteers was calendar year 1999. The Plan provides tax deferred income benefits to active volunteer firefighters.

Amounts deferred under Section 457 plans must be held in trust for the exclusive benefit of participating employees and not be accessible by the Fire District or its creditors.

As required by N.J.A.C. 5:30-14.48, the Fire District must have an annual review of its LOSAP performed in accordance with Statements of Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

REQUIRED SUPPLEMENTARY INFORMATION
