

***Monroe Township Fire Prevention Bureau  
District #1***

***24 Harrison Avenue  
Monroe Township, New Jersey  
08831  
(732) 251-0900 Ext 4***

***Ernest Zih, Fire Official***

Date: October / November 20, 2013  
Monthly Report:

Inspections: See attached.  
Smoke detector inspection still going late in the season

Investigation: nothing pending  
Pat completed Arson Investigation 80 hour course.

Money: Billing of non-hazard fee out went out and money check coming in

Budget: 2014 Budget developed. I need to meet with Karen to go over 2013 spending and then with Commissioners for future planning.

Computer: Carbinite cloud back-up installed / and waiting for bill .  
Received invoice from Rom Zdad for server update and  
prep to update old computer to Windows 7 for security  
reasons.

Received computer alert from DCA

Fire Prevention; Poster Contest /Home inspection contest started

I will meet with Woodland to reschedule some  
canceled assemblies.

I am working on contingency plans with the goal  
of training other personnel to provide fire  
prevention / trailer operations.

## Cyber Situational Advisory

29 October 2013

DISTRIBUTION NOTICE - TLP: GREEN

(U) Warning: This product is UNCLASSIFIED//FOR OFFICIAL USE ONLY (U//FOUO). It is to be controlled, stored, handled, transmitted, distributed, and disposed of in accordance with the DHS policy for FOUO information and is not to be released to the public, media, or other personnel who do not have an authorized need-to-know without appropriate prior authorization. State and local homeland security officials may share this document with authorized critical infrastructure and key resource personnel and private sector officials without prior approval.

(U) The Traffic Light Protocol (TLP) is a set of designations used to ensure that sensitive information is shared with the correct audience. This document is "TLP: GREEN". Recipients may share this information only with peers and partner organizations within their sector or community, but not via publicly accessible channels. For more information on the Traffic Light Protocol please go to <http://www.us-cert.gov/tlp/>.

## (U//FOUO) CryptoLocker Ransomware Infecting Systems Across the United States

### (U) Scope and Distribution

(U//FOUO) This product addresses the recent wave of CryptoLocker ransomware<sup>1</sup> infections throughout the United States. Included are prevention and incident response mitigation strategies, as well as a description of the malware and helpful sources. This product is U//FOUO / TLP: GREEN and should be shared as widely as possible with all partners.

### (U) Key Points

- (U//FOUO) CryptoLocker is a new form of ransomware that has impacted numerous organizations across the United States, including law enforcement agencies and municipal governments.
- (U) The primary infection vector for CryptoLocker is spear-phishing e-mails, made to look like communications from the "Payroll Department" or legitimate companies such as UPS, DHS and FedEx.
- (U) The malware works on computers running Windows XP through Windows 7, including 64-bit versions.
- (U) Once CryptoLocker infects a system it attempts to locate a command and control server by attempting to connect to various domains generated by a Domain Generation Algorithm.

<sup>1</sup> (U) Ransomware is a type of malicious software designed to block access to a computer system or files until a sum of money is paid.
